Food Safety Information

- ✓ If the power is out for less than four hours, the food in your refrigerator and freezer is safe to consume. While the power is out, keep the refrigerator and freezer doors closed as much as possible to keep food cold for longer. Or, place food that may spoil in a cooler with ice. Do not open freezer during this period.
- ✓ If the power is out for longer than four hours, follow the guidelines below:
 - A half-full freezer will hold food safely for up to 24 hours. A full freezer will hold food safely for 48 hours. Do not open the freezer door if possible.
 - For the refrigerator: Pack milk and other dairy products, meat, fish, eggs, gravy, and spoilable leftovers in a cooler surrounded by ice. Inexpensive styrofoam coolers are fine for this purpose.
 - Use a food thermometer to check the temperature of your food before you cook or eat it. Throw away any food with a temperature of more than 40 degrees Fahrenheit.
