

* Base Environmental will help you determine if a permit is needed.

* If your project does not require a permit, you must submit an exemption form or a BMP site plan.

* All construction projects must be evaluated under the National Environmental Protection Act (NEPA).

* Regardless of stormwater permit requirements any ground disturbing activity requires a dig permit which is obtained through a NEPA determination.

* All construction projects must use appropriate BMPs to prevent Illicit discharges to the storm water system and surrounding waterways.
